Key Learnings:

01

Digital Accessibility

I learned that how I can raise my voice and advocate for inclusivity and equal access to online platforms for PWDs.

02

Cybersecurity

it was something new to me in which I learned about keeping my personal information safe online and how I can be safe from such threats which is really a good thing.

03

Internet Fellowship & Grants

These fellowships and grants aim to promote the development, research, and understanding of the internet and its impact on society.

FUTURE LEARNING:

I will try to learn about inclusive designing. For instance learning about digital content which will be accessible to all

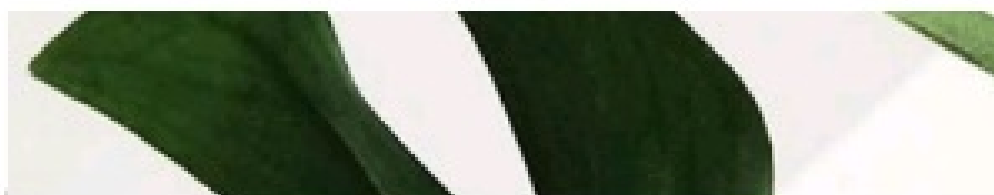

Getting more knowledge about IGF and ICANN etc so that would be able to aware others too.

I will continue to learn more about disability rights and will be looking forward to actively participate in such discussions related to IG.

Personal development:

REFLECTIVE LEARNER

- Learn from a wide range of situations, not just one where you being taught.
- Reflect on how learning relates to other learning, and if relevant to a theoretical perspective.
- Apply previously acquired learning (what you have gained from studies) to your work situation.

SELF DEVELOPMENT

- Become more self-disciplined and self-confident.
- You can achieve some of the employability skills listed above as well as greater awareness.
- You will become more mature because of subject yourself to the rigors and responsibilities.

IMPLEMENTING POINTS:

1. WORKSHOPS

I will try to organize a workshop in my institute for deaf individuals to make them aware as well

2. VIDEO CAPTIONING

Make videos accessible for Deaf people in which there's gonna be Sign Language and Captions as well.

3. INTERPRETATION

In this training I was unable to understand everything due to different and hard signs of interpreter but I will make sure to provide clear and simple sign language so that everyone can understand easily and leave with zero confusions.
